

# EXPERIENCE THE POWER OF SHARING

Our Sharer range includes shared unlimited\* minutes and texts, which can be distributed across all handsets!

Sharer is designed for business customers who want their voice, text and optional data shared across multiple users. We offer a huge range of easily managed bundles with the freedom to switch between devices.

Optional additional data, text, and voice bolt-ons can be added on a 'shared' or 'per device' basis, with allowances that can be enjoyed in the UK and across our Europe Zone\*

You'll also benefit from free O2 to O2 calls, and receiving a call and voicemail are free in the UK.

# HOW DOES IT WORK

When it comes to data, not everyone uses their phones in the same way each month. Our Sharer Tariff is the best way for an agile business to maximise its data allowance. You choose how much shared data your business needs, the number of devices, and any specific data user requirements. There's even the option to add a range of bolt-ons and added extras.

Sharer Tariff has a range of shared data options to choose from, which suit the majority of businesses but if you need a bespoke package, we can tailor our Sharer Tariff to fit your requirements.

### STEP 1

Choose how many devices you want.

Our Sharer Tariff comes with a lead device as standard. You then need to decide how many additional devices you want.

*Got a new member of the team?*

It's easy to add new handsets to the account at any time on the Sharer tariff.

### STEP 2

Add your shared pool of data. Ranging from 10GB to 2TB.

GB	Min. users	Max. users
10GB	2	20
20 GB	2	30
30GB	2	40
40GB	3	50
50GB	4	70
60GB	4	80
70GB	5	100
80GB	6	100
100GB	7	150
150GB	10	200
200GB	14	300
500GB	34	1000
1TB	125	2500
2TB	250	2500

### OPTIONAL

Got a user who needs special treatment? Not a problem!

As an alternative to using the pooled data allowance you also have the option to add fixed data allowances to individual handsets.

The data is not shared with anyone else – Ideal for people with specific data requirements. Choose with these 3 handset specific additional data allowances:

- 1GB
- 3GB
- 8GB

# TAILOR YOUR EXPERIENCE

my.plan is packed full of powerful insight and features designed for businesses of any size.

However, every business is different and so is every user. That's why we've introduced three levels of Tariff – Essential, Gold and Platinum – so you can choose the level of insight, control and support that fits your business needs.
